HOW DOES IT WORK?

Escape rooms are a type of live, physical adventure game in which people are "locked" in a room with other participants. They have to use elements of the room to find clues, solve a series of puzzles, and escape the room within 60 minutes. This promotes creativity under pressure and improves team morale. **Your team will succeed by working together**, but can they escape in time?

This kind of experience engages participants and engaged employees call-in sick less and are more productive on the job. Workers in employee training programs are more likely to stay with their employer and collaborate better in the workplace.

One Way Out gives your team a place to work together to beat the clock while problem-solving through a series of puzzles and clues to escape before time runs out.
